

Computer Classes

for beginners

at the Gale Free Library, Holden

Class One: **Wednesday, April 3, 2019** from **4:30-6:00 PM**

Computer Basics

Learn about the physical parts of the PC computer, like the monitor, mouse, keyboard and printer, and how they work. Understand the operating system and how to navigate through the computer and the file system. Learn how to use applications like the calculator and Notepad.

Class Two: **Wednesday, April 10, 2019** from **4:30-6:00 PM**

Internet Basics

Find out how to choose an internet browser and open it up on the PC computer. Learn how to go to a website from an address and how to navigate through various internet pages. Understand how to use bookmarks and tabs. Find out how to safely browse and keep your computer free from viruses.

Classes are free, but are limited to 7 students. Please call
508-210-5569 to reserve your spot!

This program is generously sponsored by The Friends of the Gale Free Library.
