New and Recommended by LibraryReads

From the New York Times bestselling author of *The Passage* comes a riveting novel about a group of survivors on a hidden island utopia--where the truth isn't what it seems.

"Next to impossible to put down... exciting, mysterious, and totally satisfying." -- Stephen King

"Summer is coming to a close on the East End of Long Island, and Alex is no longer welcome.... Propelled by desperation and a mutable sense of morality, she spends the week leading up to Labor Day moving from one place to the next, a cipher leaving destruction in her wake. Taut, propulsive, and impossible to look away from, Emma Cline's *The Guest* is a spellbinding literary achievement." Publisher's summary.
